

SAPP-TYPE

DOUBLE ACTING *Baking Powder For Tortillas*

**TORTILLA
TOTAL™**

- DESCRIPTION** *A pyrophosphate type chemical leavening product that has been formulated especially for the production of tortillas.*
- INGREDIENT STATEMENT** *This baking powder contains sodium acid pyrophosphate, sodium bicarbonate, cornstarch, and dicalcium phosphate.*
- USE LEVEL** *This baking powder provides the same carbon dioxide gas release as the majority of double-acting commercial baking powders. Typical amounts of baking powder should be used with this formula.*
- GAS RELEASE** *All of the carbon dioxide present is available for leavening and is typically more than 15% of the baking powder. For analysis method, see Method 923.02 of the Official Methods of Analysis of the Association of Official Analytical Chemists, 18th Edition, Revision 2, 2003.*
- LEAVENING ACTION** *Leavening carbon dioxide is released by reaction of the sodium acid pyrophosphate and monocalcium phosphate in the presence of heat and moisture.*
- LABELING** *This product may be listed as "Leavening" or "Baking Powder" followed by a listing of the ingredients (sodium acid pyrophosphate, sodium bicarbonate, cornstarch, monocalcium phosphate, and calcium sulfate).*
- PACKAGING/ CODE** *50 lb. multi-wall poly-lined PBOM bag #02385*
- STORAGE** *Store in a cool, dry place and keep container tightly closed. Heat and moisture should be avoided.*
